COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class "a," books received with informal applications or informal affidavits, or without the registration fee; or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class "b," books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b," the manner of handling them in the Copyright Office enables the larger number to be given promptly a registration number, and such books are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are usually books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited but also nearly all the important books.

During the year 1914, out of a total of 11,835 books received and drawn up into the Library of Congress from the Copyright Office, 8,675 belonged to class "b." Of these 5,264 were sent up on the day they were received in the Copyright Office and 3,411 on the day following their receipt. 3,160 books belonged to class "a" and were sent up on various dates.

PROMPT INCLUSION OF TITLES IN THIS CATALOGUE.

The Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed with entries arranged alphabetically by authors, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the Act of March 4, 1909, for ad interim protection. A monthly index of the authors, copyright proprietors. and anonymous titles of books follows each month's issues, and a complete index to all the titles of the entire year is printed as promptly as possible after the books for the year have been received.

In order to secure to librarians the promptest possible information as to the American and foreign books deposited for copyright and included in the Catalogue of Copyright Entries for Books, one copy of the two required by law to be deposited is sent on the day of its receipt to the Catalogue Division of the Library of Congress. The titles for such books are distinguished by the addition of a star (*) following the date of receipt of copies. As rapidly as these titles are returned to the Copyright Office they are printed from day to day in signatures of not less than four pages, and the Superintendent of Documents forwards these signatures at once to all libraries subscribing to the Catalogue or receiving the Catalogue as depository libraries. This mode of printing is for Part 1, Group 1 (books proper) only. The monthly index number is supplied each month. This monthly issue also contains the list of copyright renewals and extensions made for books under section 24 of the Act of March 4, 1909, and any other text matter not necessary to the list of book titles. In order to economize and to secure speed in printing and delivery, these signatures have no title or cover, but each has continuous paging and in the lower left-hand corner in large type the year of the Catalogue, its sequence number, and date of printing.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herdbooks, and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons, and addresses prepared for oral delivery, Dramatic compositions, and Maps, and a list of copyright renewals and extensions for Dramatic compositions.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases and registration follows deposit of copies with an application for entry in the Copyright Office.

The copyright notice states when the book was published, when the copies were received, the class and entry number, and the claimant of copyright. To save space the notice is abbreviated as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, and addresses prepared for oral delivery; "D," Class D, Dramatic compositions;

"F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2 c." for 2 copies, or "1 c." for 1 copy, followed by date of receipt. "A ad int." implies ad interim copyright registration under the Act of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number, by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen immediately following the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1 for 1915, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.
